

Dear Haslemere Health Centre,

Following your incredibly helpful feedback on our pitch, here is our project as it stands- having moved away from our previous pitch ideas, which was the scribbly line motif for our main character, we have refined them down to a simple black line, which will be done in ink on paper and then scanned in. It will be fully coloured. This animatic is a rough outline for the action to give a better idea of what the film will look like when it is finished, however the visuals themselves are as close as we can get to the finished style. The sound is more of a placeholder at the moment, just to properly time it out.
