

HHC Covering Letter: Group D – “Healthy Eating” Animatic

By Eleanor, Nathan & Victor

Regarding previous comments:

- We tried to keep the shapes as neat and professional as possible to keep it from being rough and crude.
- We made sure to keep colours bright and eye catching, as well as keeping the backgrounds in contrast so the action is still clear.

Animatic content:

- We are going to add details to the cut outs using pens.
- We will refine the shapes and sizes of the food and more detailed shapes, to make it clear what each food is as well as make the animation more interesting visually.
- Our scenes will be more detailed with more movement and speed with less shaking and fluid movement. The slower, more choppy animation will be smoother over the whole film.
- Our voice over will be redone with a more professional sound and set up, allowing the voice to be clear and make sure the timings are all perfect.
- Frames will be exported in correct sizing and be kept consistent throughout.
