

Hello Haselmere Health Centre!

We hope you enjoy our latest update on our animation with the animatic.

Thank you for the helpful feedback in your last comments from our presentation of ideas. Regarding your feedback about the hair colour being hard to make out against the skin tone of the girl character, we totally agree and will make her hair darker and more distinguishable from her skin. Just for the purposes of exploring ideas in this animatic, the majority of the work is presented in grayscale, but the final animation will have colour.
